

Twinserve

Twinserve Limited Company Profile

Twinserve is a recruitment company with a specialist focus in the Electronics, Software and Telecommunications Industry. The company was set up in Norwich, in 2002 and now has business partners in Holland, France and Germany.

We have a large number of engineers and designers on our books who are specialists in their respective fields and are currently looking for contracts and permanent positions in the UK and Europe. We regularly employ experienced engineers who work in some of Europe's largest electronic companies and specialist development organisations who are all at the forefront of research and development.

Thanks to our international focus we attract candidates from across the world. We are therefore in the unique position to be able to draw not just from the UK candidate market, but also from Holland, Germany, Belgium France. Since the company was set up in 2002, we have continually developed strong relationships with local and international advertisers.

Twinserve specialise in:

Here at Twinserve we supply permanent and contract staff to many European companies and as an international recruitment agency and an engineering employment business we specialise in the placement of specialist technical staff in the following fields:

- Electronics** – Design, Development & Testing, ASIC, FPGA, Digital, Analogue & Systems
- Software** – Programmers, Architecture, Development, Design, Software, Firmware, Embedded, Programming, Networks, etc.
- Wireless** – RF Telecommunication Communication, Spacecraft and Satellite systems
- CAD** – CAM systems, IC CAD Design IC Layout
- Information technology** – All aspects of IT, IP, Internet Security, Data Handling, Networks and Optical Communications
- Fibre optics, Photonics, Fibre optic R&D**

Why Twinserve?

With our international recruitment focus, we are able to find contract positions for our candidates from more than one country. We supply permanent and contract staff to small and midsize European companies with the aim to solve your human resource needs.

Because we are focused on the Electronic, Software, Aerospace and Telecom fields, we have also developed excellent relationships with clients and candidates in these fields.

Quick Response

Because a tightly integrated structure is combined with the international character of our business, we are able to offer personnel at an extremely competitive price. We are able to fill vacancies, complete job orders or find technical skilled contractors fast. In most cases requests are responded to within 24 hours.

No Hidden Costs

Contract work: You pay only for actual hours worked. There are no hidden costs - no vacation pay, sickness benefits, pension funds or termination payments. This means that realistically costing a project becomes significantly easier.

The Bottom Line

We understand and thrive in working under high pressure in a highly competitive high-tech industry. We are here to provide you with solutions to your staffing problems which will enable you to effectively compete in this rapidly changing world.
